Never deliver in a filled mailbox

Remember **never** to deliver when the mailbox is full, as you must be able to close the mailbox so that no one can see you have delivered to the address. Please inform us about the address if the mailbox is full and you cannot deliver.

Empty houses and torn down house!

At NORDJYSKE Medier we advocate for sustainability – we must take care of and protect our nature. If you have houses on your list, that are either empty or homes that have been torn down please let us know. We want to close the address to make sure that we do not pack commercials and print newspapers for the household, which eventually just ends up thrown away after your distribution. Thank you for taking care of our nature too!

Please always remember to tidy up after yourself when you are out delivering, so no strips or papers is lying on roads and pavements.
